of over-anxiety. We asked Francis Ouimet, some time back, to describe as well as possible his mental attitude before a hard match.

"It is not an attitude," he said, "of either confidence or dejection. I don't go in expecting to win—or expecting to lose. In this way, if

things break against me at the start I am not thrown off balance, nor unduly cast down through having any great expectations jolted. I play my game and let the other fellow play his. If he has a better game, he wins. And if I lose I refuse to feel that any national calamity game, he wins. And if I lose I refuse to feet that any hational calamity has taken place or that my career is ruined. I have tried to care too much for victory nor to mind too much a defeat." This is the greatest match play attitude of them all. The only thing that can possibly beat him is a better game by the other man. For he

Braves and Cards rose from the rut in 1914. Maybe the Yanks and Reds are due for a 1915 uplift. And then again maybe not.

"Miss Brown will now do the Annette Kellermann splash dive," said the young man in black, bowing low before the piscatorial star.

But, no. Dark clouds gathered on Miss Brown's brow and she pouted and atamped one pink foot. Commodore Brown hastened to her side and held a whispered conversation with his overbearing daughter.

"Says she doesn't think she's getting enough money, and besides, she wants it announced as the 'Catherine Brown rocket dive,'" confided Mr. Brown in a tremulous voice. This was made known to John L. Dorgan, the manager of the show, who hurried to Miss Brown's side and agreed abjectly to all her terms. Then, and not until then, did the diving star make her leap and emerge from the water to acknowledge the plaudits of the crowd.

In a public statement issued later Miss Brown declared that it was not profesional jealousy of Miss Kellerman that prompted her to take the action she did, as she harbored no ill feelings toward the Australian swimmining marvel, "But an artiste has to

Edgar T. Appleby, the Columbia student whose playing has been the sensation of the tournament, won the national amateur championship at 18.2 halkline billiards in Class C last night at Doyle's Academy. Appleby defeated C. P. Mathews, of Brooklyn, by a score of 200 points to 185 after a game that saw both men in the lead at different stages.

Mathews held the lead until the twenty-eight inning, when his score read 115 to Appleby's 87. When the Columbia student came to the table for his turn, however, he proceeded to click off a beautiful cluster of forty-five points, mostly by clever, close bill-

Although this run put Appleby in the lead for the first time, Mathews came right back in the thirty-fourth inning with a pretty run of twenty-one, placing him in the lead by two points. In the forty-first inning, with the balls in an easy position on the table, Mathews had his last opportunity of catching his rival. The best he could do, however, was to add three points to his total, failing on a simple draw. Appleby then ran out his total with an unfinished string of six points, giving him the championship.
